Labubus by Hannah Mocke

★★★★

Have you heard about Labubus? Labubus are keyring toys that look like evil little bunnies. They are bunnies, but they have sharp teeth and look very mischievous. Labubus are very popular these days with people of all ages. Even celebrities like Lisa and Rosé from BlackPink and Wonyoung from IVE like Labubus! There are many different colors of Labubus such as pink, blue, gray and more. The tricky part about Labubus is that you never know which one you will get when you buy one. It is completely random, just like a gacha game. There is also a secret type of Labubu that is extremely rare and hard to get. If you get this Labubu, boy, are you gonna be rich! Collectors will pay ridiculous prices for rare Labubus. If you're lucky, who knows? You might get a rare Labubu! I personally think Labubus are really cute. Do you think Labubus are cute, too?

Rain Damage

by Aidan

★★★★

We have had heavy rain this summer. The rain has caused flooding and damage all over the country. The water even went into some people's houses and ruined them. South Korea has many bicycle roads that run alongside rivers. In areas with low-lying roads, the rivers have sometimes overflown and caused great damage to the bicycle roads. Construction has begun to repair these roads but for now many of them are closed. In some areas, it is now impossible to ride your bicycle without traveling on the same road as cars and trucks which can be very dangerous. I hope they fix the roads soon.
